# **DRONE VIEW LINE** **PHOTOGRAPHY**

SURVEY-ACCURATE FUTURE VIEWS FOR PROPERTY DEVELOPMENT  
DESIGN, MARKETING, AND APPROVALS

# WHAT WE DO

---

We capture elevated panoramic and standard view photos from precise heights that match each planned floor of your development.

This allows your team to:

**Design with confidence** using accurate site context

**Market off-the-plan** with real-world future views

**Support DA submissions** with verifiable location imagery

## Why It Matters

**Accuracy** – Captured using enterprise-grade RTK drone technology for centimetre-precise height positioning.

**Marketing Impact** – Panoramas and stills that showcase the true views buyers can expect.

**Project Efficiency** – No guesswork, no reshoots, and data ready for 3D integration.

## Our Process

**Site Review & Planning** – We map out capture points and floor heights from supplied plans.

**On-site Capture** – RTK drone flights at exact floor elevations.

**Delivery** – High-resolution panoramas and stills, ready for marketing or design integration.

## Deliverables

180° or 360° panoramic images by floor

High-resolution still images

interactive viewing platform

## Who Benefits

**Property Developers** – for marketing campaigns and buyer confidence

**Architects** – for accurate design decisions

**Marketing Agencies** – to create compelling sales visuals

**Project Managers** – for stakeholder presentations

## Example Use Cases

Off-the-plan apartment sales

View impact studies for council submissions

Integration into 3D architectural renders

True Perspectives  
Stronger Sales.**

## Bank & Mollison WEST END

Unison Projects engaged Visual Spaces to capture drone view line photography at their upcoming development site located at corner Mollison Street and Bank Street, West End. The objective was to visualise the outlook from proposed apartment levels before construction begins.

Client: Unison Projects

Marketing Agents: Position Property

Location: 15–17 Mollison Street and 35–39 Bank Street, West End

Delivery time: 3 days

### OTHER RECENT PROJECTS
